

Renewable Water Resources

COMPLIANCE EXCELLENCY RECOGNITION PROGRAM

Purpose: In order to foster community goodwill and recognize those Industrial Users whose efforts have resulted in an excellent status of compliance with Renewable Water Resources, a compliance recognition program has been implemented.

The categories and criteria for participation are as follows:

- Review for recognition will be limited to Significant Industrial Users.
- The review period will consist of a calendar year.
- The requirements of the ReWa Sewer Use Regulation and control documents will be reviewed to determine compliance. This includes reporting, monitoring, observing limitations, etc.
- Significant Industrial Users with no violations of the Sewer Use Regulation or control documents will receive a compliance recognition wall plaque.
- Significant Industrial Users in Significant Noncompliance during the review period are disqualified
