Western Carolina to Publish Annual Report

As part of ongoing public education efforts, Western Carolina Regional Sewer Authority (WCRSA) will release their "2005 Annual Report to the Community." The folded insert will be published in your local paper during the month of January. The Annual Report provides information on the organization, its financial status, and its achievements for 2005.

This year's Annual Report highlights WCRSA's community outreach efforts, including a golf tournament to benefit Hurricane Katrina victims. Also included in the report are updates of the capital improvements plan and the award-winning achievements of WCRSA.

During 2005, Western Carolina received two prestigious financial reporting awards. For the seventh consecutive year, the organization received the Popular Annual Financial Report Award for the 2004 Annual report to the Community. Western Carolina also received the Certificate of Achievement for Excellence in Financial Reporting for its Comprehensive Annual Financial Report (CAFR) for the twelfth consecutive year, making this year's report a must-read.

Western Carolina continues to maintain a stable and healthy financial status, due to long-range planning and careful allocation of resources. As a public utility, Western Carolina strives to use their funds wisely, pursuing only the most efficient and cost-effective projects to protect the environment and accommodate economic growth in the Upstate.
