**CHARLES LOGUE JOINS RENEWABLE WATER RESOURCES AS
DIRECTOR OF TECHNICAL SERVICES**

Greenville, S.C. (February 23, 2010)—Renewable Water Resources (ReWa) welcomes Charles L. Logue, PE, as its new Director of Technical Services. In this position, Logue works over the technical services department and will be responsible for planning, directing and overseeing the daily management of the Engineering, Laboratory and Industrial Pretreatment Departments. Logue will also serve as technical advisor to the executive director and board of commissioners.

Logue received his undergraduate degrees in Zoology from the University of South Florida and Environmental Engineering from the University of Florida, as well as his Master's degree in Biology from University of West Florida.

Prior to joining ReWa, Logue was the Director of Regulatory Affairs for Clean Water Services in Washington County, Oregon for six years. He has served on the Board of the National Association of Clean Water Agencies (NACWA) for seven years and was the chairman of the Oregon Association of Clean Water Agencies for three years.

Logue continues to serve on the Board of the Clean Water America Alliance, is the chairman of NACWA's Strategic Watershed Taskforce and co-chair of the Water Environment Federation's (WEF) Sustainable Watershed Community of Practice. Logue can be reached at 864-299-4038 or charlesl@re-wa.org.

Renewable Water Resources (ReWa)

ReWa's goal is to promote a cleaner environment, and to protect the public health and water quality of the Upstate waterways, while providing and developing the necessary sewer infrastructure for the growing economy. ReWa serves more than 400,000 industrial, commercial and residential customers in Greenville County and parts of Anderson, Spartanburg, Pickens and Laurens Counties.
