

## Western Carolina Regional Sewer Authority Receives National Award

Western Carolina Regional Sewer Authority was recently presented with the Public Information and Education Award by the National Association of Clean Water Agencies (NACWA). NACWA annually recognizes individuals and member agencies that have made outstanding contributions to environmental protection and wastewater management. Western Carolina developed the “Freshwater Freddie Ultimate Water Guide for Kids,” which was recognized as being a cost effective tool that efficiently and effectively educated the community about protecting our environment and learning about the wastewater treatment process.

Western Carolina celebrates 75 years of environmental stewardship. The organization provides wastewater treatment services to over 400,000 industrial, commercial and residential customers in Greenville County and parts of Anderson, Spartanburg and Laurens Counties. Western Carolina operates and maintains 300 miles of major sewer trunk lines and 10 major wastewater treatment facilities. If you are interested in more information about Western Carolina, visit [www.wcrsa.org](http://www.wcrsa.org).
