Renewable Water Resources Distributes Annual Report to the Community

Greenville, S.C. (January 11, 2012) – As part of its public education program, Renewable Water Resources (ReWa) recently released its *2011 Annual Report to the Community*. This 12-page insert, contains current information on the organization, its financial status and its educational campaign programs, and was distributed through local publications this month.

Particular to fiscal year 2010-2011, this year's report features best practices from the Effective Utility Management Primer and ReWa's current implementation plans. It also discusses the recent

success of its Inflow & Infiltration Reduction Program thanks to the collaboration from Upstate subdistricts.

ReWa utilizes the annual report as an informative, yet cost-effective communication to the public, as the 2011 report was printed and distributed through various local publications for a minimal cost of less than \$0.25 per piece. Any person who has not received the 2011 Annual Report may read and print the document by visiting ReWa's website at www.rewaonline.org/annual-report.php.

Renewable Water Resources (ReWa)

ReWa's goal is to promote a cleaner environment, and to protect the public health and water quality of the Upstate waterways, while providing and developing the necessary sewer infrastructure for the growing economy. ReWa serves more than 400,000 industrial, commercial and residential customers in Greenville County and parts of Anderson, Spartanburg, Pickens and Laurens Counties.
