Renewable Water Resources Receives State Biosolids Management Award

Greenville, S.C. (April 20, 2011)—The Water Environment Association of South Carolina (WEASC) recently recognized Renewable Water Resources (ReWa) with the Biosolids Management Award at the South Carolina Environmental Conference (SCEC).

This award recognizes ReWa for: significant recycling or reuse of natural resources such as nutrients, organic matter or energy; its sustained project for several years that is full-scale with proven operation; consistent, cost-effective operation; public acceptance; compliant with all federal, state and local regulations; and excellence in project management.

Caption: Joey Collins, ReWa's Operations Manager/Solids, is awarded with the WEASC Biosolids Management Award.

Renewable Water Resources (ReWa)

ReWa's goal is to promote a cleaner environment, and to protect the public health and water quality of the Upstate waterways, while providing and developing the necessary sewer infrastructure for the growing economy. ReWa serves more than 400,000 industrial, commercial and residential customers in Greenville County and parts of Anderson, Spartanburg, Pickens and Laurens Counties.
