Renewable Water Resources Participates in Earth Fest 2009

Greenville, S.C. (April 29, 2009) – Renewable Water Resources (ReWa) recently participated in Greenville Tech’s Earth Fest 2009. The public event, sponsored by the Greenville Tech Recycling Coalition, brought together environmentally-friendly organizations, like Renewable Water Resources, to increase awareness about practices that are ecologically sound.

ReWa presented a booth Freshwater Freddie – the kid-friendly and informative mascot of Renewable Water

Resources – with information on how the community can help prevent the hazards of Fats, Oils & Grease (FOG) in the sewer system. For more information on FOG, visit www.rewaonline.org and click “How Can I Help?” under the Community tab.

Caption 1: ReWa’s Grease Inspector Kim McDonald (right), Customer Service Manage Stacey Green (center) and Customer Service Account Inspector Veronica Davis (left) talk with attendees about helpful practices to protect the environment.

Caption 2: ReWa distributed its “Grease-Be-Gone” can to event attendees to reduce FOG hazards.

Renewable Water Resources (ReWa)

ReWa’s goal is to promote a cleaner environment, and to protect the public health and water quality of the Upstate waterways, while providing and developing the necessary sewer infrastructure for the growing economy. ReWa serves more than 400,000 industrial, commercial and residential customers in Greenville County and parts of Anderson, Spartanburg, Pickens and Laurens Counties.
